MOD-LEC MOBILE

PRODUCT INFORMATION SHEET

MANAGEMENT OF A ZONE FROM A SMARTPHONE

MOD-LEC MOBILE is an additional module for VISOR®. It allows inputs and outputs to be managed with the verification of the user's identity and status. MOD-LEC MOBILE reads QR Codes or MIFARE Classic format badges.

KEY FEATURES

- Input and output control with anti-pass back management
- Photo display
- Management of statuses and validity dates
- Compatible with Android, NFC, NXP (MIFARE) smartphones
- Centralised management on Visio using Wifi or 3/4 G
- Compatible with QR Codes and Mifare Classic badges
